"In the case of automobiles subject to the labeling requirements, may the warning statement required by the regulation be included in the existing price and equipment specification label (i.e., the Monroney label)?"

"The warning statement may appear on the Monroney label. Section 82.108(c) of the regulation states that 'The warning statement may be placed on a hang tag, tape, card, sticker, invoice, bill of lading, supplemental printed material, or similar overlabeled that is securely attached to the... product....' Placing the warning statement on the Monroney label would satisfy this requirement. However, the Federal Trade Commission may have additional regulations governing the contents or form of the Monroney label."
